T. E. Boers seem to be standing the English party test fairly well.

THE G. A. R. resolutionists continue to fire away at Pension Commissioner Evans.

It appears that one H. E. Havens, of Enid, has two different and distinct views on statehood.

THE Republican harmony war in Oklahoma has reached the pink tea stage.

Sid Clark paused in the midst of the statehood argument long enough to make a vicious uppercut for Washington expense money.

THERE was a time when Oklahoma could hold a statehood convention with roughhouse adjuncts. But Oklahoma has degenerated.

HAVING finished the oratory for statehood for Oklahoma, let us turn, once more, to the Oklahomization of Oklahoma.

The fellows who compounded the Oklahoma City statehood meeting advance notices overdid the things shamefully.

BILL LITTLE has become so skilled in the business that he can now "cuss" Gov. Barnes under his breath every twenty seconds without taking his cigar from his mouth.

AFTER all, perhaps it is unwise for the territory to make up its mind until after Oily Amos Ewing shall have had a chance to explain the Ohio election returns.

DELEGATE FLEMIS is on the eve of his departure. From now on Republican harmony in Oklahoma will have to do its own chores and look out for itself generally.

THE Hon. Sidney Clarke has been appointed to go to Washington to work for statehood, expenses prepaid. In calling statehood conventions Mr. Clarke's thoughts run largely to himself.

THE Hon. F. E. Gillett, of El Reno, and his beautiful ginger ale chin whiskers, broke into the statehood convention at Oklahoma City. Mr. Gillett never misses an opportunity to give the territory an imitation of a live Kansas politician.

THE story that Sec. Jenkins declares his name was forged to Gov. Barnes' Thanksgiving proclamation, and that he flatly refuses to recognize such proclamation, preferring to appoint a day for grousing on his own hook, is stoutly denied in official circles.

TIMES have changed. The statehood meeting at Oklahoma City yesterday was freckled, mealy-mouthed and wan. Four years ago statehood conventions caused the nerves to thrill. At that time there was not glory enough to go round and every man essayed to assume the role of a continuous orator and piano player combined. The thing made money for the house, but cemetery residents kicked and the police suppressed the political hootenanny.

THE Krag-Jorgenson voice of Editor Greer screeched into the statehood convention yesterday. He demanded that "twelve or fifteen men bombard Congress for statehood." Not only is that proposition mere treachery to one D. T. Flynn, the conceded equivalent of fifteen men, but it is manifestly injurious. The very fact that congress has been bombarded "from time immemorial for nine years," as Judge Perkins would say, by a lot of barge-counter politicians whose chief asset

**"He That Stays Does the Business."**

All the world admires "staying power." On this quality success depends. The blood is the best friend the heart has, and "faint heart" never won anything. Hood's Sarsaparilla is the best friend the blood ever had; it cleanses the blood of everything. If you would be strong in the race of life and "do the business," you must "stay." Hood's Sarsaparilla makes the struggle easy. It gives clear, strong blood; hence perfect health.

**Dizzy Spells**—Sudden dizzy spells would make my hands and side numb and I could not work. Took Hood's Sarsaparilla and am a well man. Fred D. Hallach, Box 94, South Kent, Ct.

**Heartburn**—After eating I had a full feeling and heartburn. This, with headaches, poor appetite and bad taste in my mouth perfectly cured by Hood's Sarsaparilla. C. N. Devoe, Chico, Mont.

**Impure Blood**—I am pleased to recommend Hood's Sarsaparilla as a tonic and blood medicine. It has cured our family of impure blood. Miss Nellie Hilenbrant, Rochester, N. Y.

consist of monologus dissertations devoid of sense and statistics, is the main reason no progress has been made toward statehood. Congressmen have grown weary of oratorical bombardments; what they want is the truth about Oklahoma, intelligently and succinctly stated and presented by some man of common sense who has no political axes to grind.

THE Chicago News thinks there is probably no truth in the report that Ambassador Choate, in effect, slighted ex-President Harrison on the occasion of the latter's visit in London by turning him over to the secretary of the embassy for the latter to arrange for Mr. Harrison's calls upon the Prince of Wales and others. An ambassador, however, who disregards the plain instructions of his superiors in office as to speech-making is not likely to be over punctilious in matters of courtesy even to an ex-president of the country he was so anxious to represent.

**POLICE COURT.**  
Judge Mock increases the Street Work Gang

The police court has had a busy time. Eight cases were disposed of today.

Henry McBrine, a negro, was taken up by Policemen Taylor and Bradford for carrying a dangerous weapon, a revolver. He was fined \$2 and costs. On his failure to produce he was given a job on the streets.

Samuel "Nine" alias Wm. Matthews, a negro, was arrested for the same offense and accordingly fined. He will work on the streets.

James Mulligan, a terrier, was taken up for being drunk and disorderly. Fined \$1 and costs. Assigned to street gang.

J. D. Lake was thrown in for being a suspicious character. He was found guilty and fined \$1 and costs. He was assigned to the street gang.

George Connery was taken up for being drunk and disorderly. Fined \$1 and costs. Assigned to street gang.

Lou Alexander, Betsy Craig and May Jones were each fined \$1 and costs for improper conduct.

Henry Payne denies it.

Scripps-McRae League.

MILWAUKEE, Wis., Nov. 18.—Henry C. Payne says the story that he is to succeed Mark Hanna as chairman of the Republican national committee is without foundation. He is confident that Hanna will serve as chairman of the national committee until the national convention, when another chairman will be chosen.

Senator Thurston Married.

WASHINGTON, Nov. 18.—Senator Thurston, of Nebraska, and Miss Leola Pernan, of this city, were married at the bride's home at 9 o'clock this morning in the presence of a few friends. After the wedding breakfast the bridal couple left on a special car for New Orleans. They will be in Omaha Thanksgiving day.

**CLASSIFYING**

OF Indian Lands by the Dawes Commission.

Scripps-McRae League.

South McAlester, I. T., Nov. 18.—That department of the Dawes commission which classifies the Choctaw and Chickasaw lands is now well started on its return from the Red river. Last July four camps of ten men started near the northeast corner of this nation, each appraising six miles square on the way to Red river, making a 24 mile east and west strip that extended two miles over the Chickasaw line. South McAlester is in the center of the return work, and it will be reached during the early part of the coming year.

Two additional orders have been issued for a more detailed and comprehensive classification, and it is now thought the greatest possible accuracy has been reached. Three men pass on every tract. These opinions are divided into ten classes and eight sub-classes, three grades of each being possible, so there are really 36 kinds of land, the questions of water and commercial timber being given additional consideration.

This morning, upon being asked if it was probable the Indians would insist on more rapid land classification, Gov. D. H. Johnson, of the Chickasaw nation, replied that all indications were for the land appraisers perfecting their labors years before the town site commission got half way through.

Means to Serve Out His Time  
and Will Not Resign.

Scripps-McRae League.

NEW YORK, Nov. 18.—At the Eastern headquarters of the Mormon church, in Brooklyn, it was asserted last night that there was no truth in the report telegraphed from Washington that Representative-elect Roberts, of Utah, intended to resign his seat in congress as soon as practicable after he was sworn in. "Congressman Roberts is right here in town," said a man at the Brooklyn headquarters. "He's too good a fighter to take water that way. He means to stick, and he won't be forced out either."

Ella Clemmons' Departure.  
Scripps-McRae League.

SAN FRANCISCO, Nov. 18.—Ella L. Clemmons, sister of Mrs. Howard Gould, has decided to devote her life to teaching the doctrines of the Catholic church to Chinese. She will open a mission at her own expense.

A perfect woman—perfect in form and in feature is a great rarity. Every woman realizes this as she stands before some beautiful piece of Greek sculpture. Social customs, tight lacing, improper food, inadequate clothing, and a score of other things have stolen the shape and suppleness of woman's form and robbed her cheeks of their roses and their roundness. For these things Nature avenges herself. Weakening drains establish themselves, tearing down the tissues and destroying the graceful lines and curves of the figure. Pains and aches help the wrinkles to come early. Displacements and bearing down sensations weaken the entire system. Nervousness makes life almost unbearable. Mothers suffering in this manner impart their weaknesses to their children, and thus is kept up the endless chain of imperfect reproduction. A new order of things is being established, however. Dr. Pierce's Favorite Prescription, the great non-alcoholic cure for women's diseases and weaknesses, is making hundreds of girls and women healthy. And it is also making the rising generation stronger and more perfect physically. Like produces like. A healthy mother has healthy children. "P. M. Prescription" makes healthy men & women.

Mrs. E. A. Bender, of Keene, Caledonia Co., Ohio, writes: "I never courted newspaper notice, yet I am not afraid to speak a good word for your Favorite Prescription and 'P. M. Prescription.' I never suffered with problems and weakness. After using your 'P. M. Prescription' and one of 'Pellets' I was a well woman. I have taken no medicine since and have had no symptoms of my former trouble."

EXTRACT FROM THE JEWELERS' CIRCULAR, NEW YORK, NOV. 8, 1890.

If the war in the Transvaal and in South Africa goes on a year longer and costs 100 millions of dollars, it is estimated that the value of the precious stones will be, if the war lasts two years diamonds will go up beyond the reach of all except the very rich.

The price of diamonds will increase 100 per cent. It is necessary to make them in a certain shape and size," said Ludwig Nielsen, a large wholesale diamond dealer and importer of New York, when asked about the effects of the Transvaal war as manifested here.

The entire output of diamonds is controlled by one close syndicate," continued Mr. Nielsen. "The place in the world where diamonds are mined is Kimberly, now besieged by the Boers. Some few little stones may be picked up in drifts or found occasionally in other parts of the world, but Kimberly is the only place in the world where diamonds are produced. The syndicate that owns the mines there sends the whole output to London in a rough form and another close syndicate markets the diamonds. The syndicate owners demand that the mines pay a certain dividend on investment. If the output does not permit of this dividend being paid at ordinary prices of the stones, they are raised to enable the owners to realize the demanded dividend.

In anticipation of the advance in prices of diamonds, I have made large purchases at reduced prices and will give my customers the benefit of my forethought.
